10-116. IT WAS MOVED by Mr. Wilbanks and seconded by Mr. Reisz to adopt the revised agenda. MOTION CARRIED UNANIMOUSLY.

Minutes of the third meeting of the 2009-2010 Board held January 26-27, 2010 were received for approval.

Action items from previous meetings were reviewed.

CORRESPONDENCE

It was suggested that two agenda items under the Correspondence section be discussed prior to discussing applications since the Board's decision on the requests for opinions could have a bearing on pending applications.

The Board reviewed a request for a declaratory ruling from Mr. John Mogge. Mr. Mogge was asking the board to clarify what experience engineering graduates could claim as engineering when they are employed in the construction industry. Board members reviewed the provisions that are contained in the Licensure Law and Administrative Code and compared them to the NCEES Model Law and Rules and the ASCE Construction Institute *Guide to Professional Engineering Licensure for the Construction Engineer*. It was the Board's opinion that there was not a conflict between the documents.

10-118. IT WAS MOVED by Mr. Arkle and seconded by Mr. Wilbanks that Mr. Arkle and Dr. Turner will work with the board staff to draft the declaratory opinion based on the discussions from the board meeting. MOTION CARRIED UNANIMOUSLY.

The Board reviewed a request from Valmont Newmark, Inc. who was asking if a firm is offering engineering services to clients to modify manufactured products to conform to the client's requirements, does the Board consider this incidental engineering and if so does the company require a Certificate of Authorization. It was the Board's opinion that if the firm is doing custom engineering of their own manufactured product and not providing other engineering services then it probably would be considered incidental engineering. It was agreed that each case would have to be considered on its own merits.

10-119. IT WAS MOVED by Mr. Arkle and seconded by Dr. Turner that Valmont Newmark, Inc. did not require a Certificate of Authorization. MOTION CARRIED UNANIMOUSLY.

At the conclusion of the hearings the Board determined it required an executive session to discuss the applications.

10-153. IT WAS MOVED by Mr. Wilbanks and seconded by Mr. Reisz that the Board of Licensure for Professional Engineers and Land Surveyors go into Executive Session for the purpose of discussing the license re-issuance applications of Mr. Robison and Mr. Pierce. MOTION CARRIED 6-0 with Mr. Arkle recused.

CHAIR'S REPORT

The Board considered the request from ASPLS to support the concept of separating the existing board into two boards. It was noted that this was the first board meeting since the request had been received and as such was the first opportunity for the Board to discuss the issue. Comments from the board staff regarding the implementation problems of the proposed legislation had been distributed earlier. Mr. Ulrich opened with comments that the Board would not be making any official motion to either

support or oppose the concept and that he anticipated that the Board members' comments would be on how the proposed legislation would impact the current board or the impact on the two boards not necessarily that the separation was good or bad. Comments and observations were made by all board members, the executive director and board attorney. Comments were received by members of the public present including Mr. Ray, Mr. Lucas, Mr. Bush, and Ms. Casillas. After all who wanted to make comments had the opportunity to do so; the discussion closed with everyone agreeing to seriously look at the issues involved remembering that the mission of any board was to protect the health, safety, and welfare of the public.

Having received no comments on the duly advertised proposed changes in the Administrative Code, the Board approved the proposed changes in fees.

10-156. IT WAS MOVED by Mr. Arnold and seconded by Mr. Ulrich that the Board adopts the changes to Appendix A to Chapter 4 of the Administrative Code as proposed. MOTION CARRIED UNANIMOUSLY.

CORRESPONDENCE

The Board reviewed a request from Mr. Robert Howard who had requested that the exam fee he had paid for the April PE exam is rolled over since he had failed to complete the NCEES registration process.

10-157. IT WAS MOVED by Mr. Arkle and seconded by Dr. Turner to disapprove Mr. Howard's request for a roll-over of the PE exam fee to the October exam. MOTION CARRIED 5-2-0 with Dr. Turner and Mr. Wilbanks voting in the negative.

The Board reviewed requests from various individuals who had requested either a refund or a waiver of the reinstatement fee for their individual license renewals.

10-158. IT WAS MOVED by Mr. Arkle and seconded by Mr. Ulrich to disapprove all requests. MOTION CARRIED UNANIMOUSLY.

The Board reviewed a letter from the Japan Engineer's Federation who was requesting guidance on how to get their engineers licensed in the United States. It was noted that NCEES is beginning to offer the national exams at foreign sites and that licensing boards were beginning to receive queries from foreign engineering federations looking to get an inroad into the licensing of their engineers by a U.S. jurisdiction. The Board members agreed that this is a growing issue with global engineering and that we must be proactive. Recognizing that it is each state's responsibility for licensure within their jurisdiction but that there is also a national model, it was suggested that NCEES should take the lead in developing a method to evaluate foreign experience.

10-159. IT WAS MOVED by Dr. Turner and seconded by Mr. Reisz that a letter be sent to NCEES asking the President to task a committee to establish a model criteria for evaluating international experience for engineering licensure. MOTION CARRIED UNANIMOUSLY

The Board reviewed correspondence from Mr. Jonathan Bonner who was concerned that the liberal interpretation taken in the past about the types of work that can be performed under the "incidental

architecture” clause by professional engineers is being eroded. The Board members noted that some engineers may have a liberal interpretation regarding the term incidental but that the Board believes that incidental should be considered the same as minor.

10-160. IT WAS MOVED by Mr. Ulrich and seconded by Mr. Arkle that the Board interprets the term “incidental architecture” is synonymous to minor architecture. MOTION CARRIED UNANIMOUSLY.

The Board reviewed correspondence from Mr. Warren Mason who identified concerns about language that was being proposed by Phenix City in regards to certifications. The Administrative Code outlines the procedures to be used when completing certifications. If what is being asked for is beyond the responsibility/control of the professional engineer then it should be noted when completing the certification.

10-161. IT WAS MOVED by Mr. Arkle and seconded by Dr. Turner to send a response to Mr. Mason identifying the provisions in the Administrative Code. MOTION CARRIED UNANIMOUSLY.

The Board reviewed various newsletters that required no response.

OPEN FORUM

No comments were received during the open forum portion of the meeting.
