After discussion, the Board determined either a more structured mentorship program pre-approved by the Board or the verification of experience by someone considered substantially equivalent to a PE could meet the experience requirements, however it would reserve its approval until the experience is complete and PE application is received.

CERTIFICATES OF AUTHORIZATION – Mr. Marc S. Barter, Advisor

The Board previously authorized the Executive Director to issue certificates of authorization to applying firms if the application is in order and all requirements have been met. A list of 50 Certificates of Authorization issued to engineering firms (CA-4562-E through CA-4612-E) and 14 Certificates of Authorization issued to land surveying firms (CA-1011-S through CA-1024-S) since the January 31, 2013 Board Meeting were reviewed.

IT WAS MOVED by Mr. Arnold and seconded by Mr. Santora that the Board ratify the approval of Engineering Certificates of Authorization CA-4562-E through CA-4612-E and Surveying Certificates of Authorization CA-1011-S through CA1024-S issued since the January 31, 2013 Board Meeting and that the list of those issued be included in the minutes on **Attachment #4**. MOTION CARRIED 6-0.

Certificates of Authorization applications which had anomalies were discussed by the Board

13-129. IT WAS MOVED by Mr. Wilbanks and seconded by Mr. Foust that the Board deny the Certificate of Authorization renewal of McCrory Surveying Company Inc., approve the certificate of authorization renewals of Pro17 Engineering and J.P. Miller Engineering, Inc, and approve the certificate of authorization application of NCO Engineering LLC. MOTION CARRIED 6-0.

The Board was asked by System Engineering Group, Inc (SEG) to consider waiving the certificate of authorization requirements for the firm thereby allowing them to register with the Secretary of State's office. The information provided indicated the firm has the term "Engineering" in its name, only provides services to the federal government (DoD), and will not offer engineering services to the public from the Huntsville branch office. The information further indicated the Secretary of State's office will not issue them a certificate of authority (qualify them to do business) until the Board identifies that their use of the term "engineering" is allowed.

13-130. IT WAS MOVED by Mr. Santora and seconded by Mr. Foust that the name Systems Engineering Group, Inc (SEG) fits within the current law if it only offers services to the federal government. MOTION CARRIED 6-0.

LEGISLATIVE – Mr. W. Gerald Wilbanks, Advisor

The Board discussed the status of its pending legislation that was introduced in the 2013 General Session. (HB 355/SB 232). The passing of this legislation is urgent since the Board may not be able to offer the Fundamental Exams once they convert to computer based exams under its current law.

CONTINUING PROFESSIONAL COMPETENCY – Mr. Earl R. Foust, Advisor

The Board was briefed on the results of the audit of the 2013 renewals.

FINANCE – Dr. Daniel S. Turner, Advisor

Financial reports for January and February 2013 were reviewed.

LAND SURVEYING – Mr. C. Michael Arnold, Advisor

The out-of-cycle ALLS exam was administered in the board office on February 6, 2013. The Board reviewed the results of the February 2013 state specific portion of the LS examinations.

13-131. IT WAS MOVED by Mr. Santora and seconded by Mr. Foust to accept the Board's recommended cutoff score and approve the results of the ALLS Exam given February 6, 2013 and to license the individuals who passed the ALLS Exam having previously passed the FLS and PLS Exams and that the list of those issued be included in the minutes on **Attachment #1**. MOTION CARRIED 6-0.

CHAIR'S REPORT

The Annual Report was reviewed. It was suggested that the staff look at the contents of the report to determine what was significant information and how to reformat the report.

Proposed changes in the Administrative Code were recommended at the December 2012 board meeting. Changes to Rule 330-X-2.01 were discussed and approved.

13-132. IT WAS MOVED by Mr. Wilbanks and seconded by Mr. Santora to approve and adopt the changes to Rule 330-X-2.01 as proposed. MOTION CARRIED 6-0.

EXECUTIVE DIRECTOR'S REPORT

Travel to the 2013 NCEES Annual Meeting was approved

13-133. IT WAS MOVED by Dr. Turner and seconded by Mr. Wilbanks that all board members, and four members of Board staff attend the 2013 NCEES Annual Meeting in San Antonio, TX August 20-25, 2013. MOTION CARRIED 6-0.

The Board was updated on the transition to Computer Based Testing (CBT) of the fundamentals exams. A process identified as "automatic" was described which allows the applicants to apply directly to NCEES to take the exam. The Board approved beginning the "automatic" process for approval of the FE and FS candidates beginning with the offering of the CBT exams.

13-134. IT WAS MOVED by Mr. Wilbanks and seconded by Mr. Foust that the Board begin the "automatic" process for approval of the FE and FS candidates beginning with the offering of the CBT exams. MOTION CARRIED 6-0.

The Board was briefed procedures to be used to meet requirements of the Alabama Immigration Law.

Travel to various in state and out of state meetings was discussed. The Board determined Board staff should attend various state society and various building official meetings to conduct outreach activities aimed at licensees, approving authorities and consumers. Since meetings held out-of-state, require approval by the governor, the Board determined in order to streamline its approval process that travel for Board business will be at the discretion of the Board Chair and Executive Director.

13-135. IT WAS MOVED by Mr. Barter and seconded by Mr. Foust to authorize out-of-state travel for Board business at the discretion of the board chair and the board executive director. MOTION CARRIED 6-0.

Travel to the 2013 Tri-State Engineering Society Meetings (AL, MS, and LA) was approved.

UNFINISHED BUSINESS

Dr. Turner led a discussion of Qualification Based Selection. In 2011 the Board adopted a position statement to further give guidance on how to comply with the QBS requirement. One option identified in the position paper is the use of two envelopes (see highlighted section of position statement). Licensees and some board members are concerned that this will lead to more bidding scenarios and have asked the Board to reconsider their position. Dr. Turner volunteered to look at the position statement and provide recommended revisions. The draft revision has been circulated amongst the board members and will be discussed with representatives of ACEC.

CORRESPONDENCE

The Board discussed a request to consider changing how it looks at the quality of the surveying services provided. The Board stated that the quality of the survey drawing produced; and the method used to determine that quality during the investigative process have always been a concern. The current “desktop” review of a questioned survey relies on evaluating the survey using the current standards of practice for land surveying in Alabama. Dr. Turner agreed to contact the individual for additional discussion, and the Board took no action.

The Board discussed a request to consider changing the definition of “retired” license status. The current process requires an individual who is in retired status to renew their license annually. The fee for renewal if over the age of 65 is \$10.00. There is also a provision that if the retired licensee wants to convert the license to active status during the year they must pay \$35.00 (difference between normal renewal and the retired renewal) and must do the required continuing education. The Board took no action on the request.

Newsletters and general correspondence not requiring a response were reviewed.

NEW BUSINESS

Engineering Practice Questions

The Board discussed questions received from licensees as to when the services of an architect are required. The Board advised that licensees should continue to practice within their area of expertise, and that it does not determine what an Architect can or cannot do.

Surveying Practice Questions

The Board discussed questions received from licensee relative to GIS and Surveys as well as ALTA Surveys relative to surveyor’s liability and the regulation of GIS with minimum technical standards. The Board stated it does not make determinations regarding liability; that GIS is not within the practice of land surveying and therefore is not regulated by the Board, and ALTA surveys are also not regulated by this Board.

General Practice Questions

The Board was asked to clarify the requirements relative to the retention of documents, specifically signed and sealed drawings. The Board determined the Law and Code requires continuing education documents be retained for four years; and allows complaints to be filed up to 10 years from the date of occurrence, and recommended retention of documents accordingly.

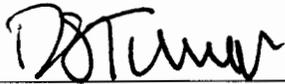

The Board was asked to clarify the requirements relative to advertising on the internet using websites, pay per click advertising, banner ads, or video ads. The Board concurred that the regulations on advertising have been established in the Board’s Law and Code and are clear.

OPEN FORUM

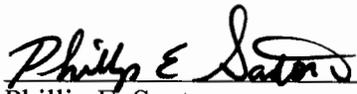

No comments were received from the public.
